2 Panels & openings

3 Insulated interior

4 Ready to use

BUILDINGS & SIZES

Carports	12×21 to 24×31
Garages	18×21 to 30×41
Barns	30×31 to 40×61
Commercial	40×41 to 60×80
RV & boat covers	extra-tall legs

Workshops, loafing sheds and custom sizes too. Ask us what fits your lot.

STEEL

14-gauge standard for most homes.

12-gauge about 20% stronger, for 30'+ widths and high wind or snow areas.

COLORS

Mix roof, walls & trim

18 standard colors plus 2 premium (gold outline, extra cost). Colors shown are approximate; ask to see a sample.

ROOF STYLES

Classic (Regular) — the budget choice for mild sites.

Boxed Eave — a cleaner, house-like look.

Vertical — strongest; sheds rain and snow best. Our pick for Oregon and anything over 24' wide.

OPTIONS

Roll-up doors · walk-in doors · windows · insulation · skylights (vertical roofs) · ground or concrete anchors · lean-tos

HOW BUYING WORKS

We're here to assist along the way, as your local dealer.

1 ORDER

Get started with just 10% or 15% down (based on building price).

2 CONFIRM

We confirm your order with Pacific Metal Buildings.

3 VERIFY

PMB calls you to verify your building details.

4 SCHEDULE

Your install date is scheduled.

5 INSTALL

PMB builds it; the balance is paid to PMB upon completion.

Site: level within 3" on concrete, gravel or asphalt. Most buildings need a permit; engineer-certified drawings are available.
